COUNTING SYSTEM

![Vibración — SHRI VIBRACION TECHNOLOGIES PVT LTD]
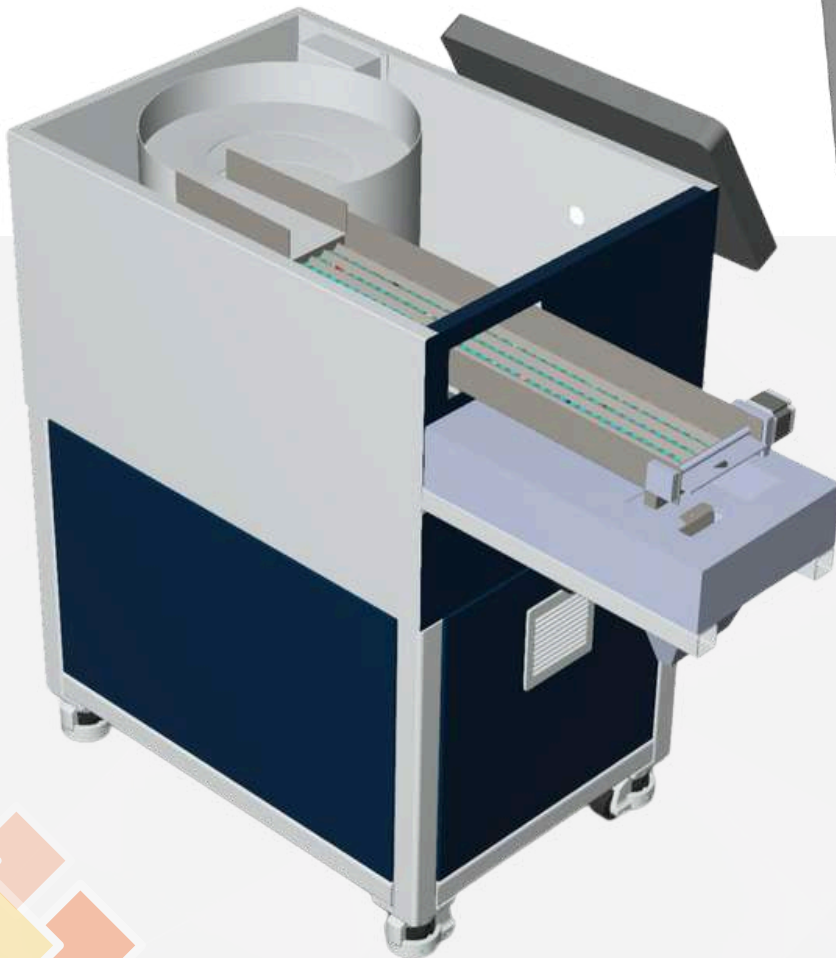

TECHNICAL SPECIFICATIONS

The current counting system solves the problem of component deviations (in terms of weight) received in a lot. Components can be capsules, tablets etc.
Counting System – AI Based with Algorithm, Free Fall Base Counting with an accuracy of 99.8%. Size: 5 mm - 20 mm.

BENEFITS :

- Basic model – 1000 parts/min
- Accuracy: 99.8%
- Batching is optional
- On site product training is possible
- Self learning
- Bulk-to-Batching Transition
- Automatic Speed Control
- Accuracy improves over time

- Mixed Parts Counting- Variant model
- Energy Efficient – Low power consumption
- PLC Based System
- Industry 4.2 ready
- HMI & computer option
- Scada enable
- bagger is optional

APPLICATION

Suitable for all kinds of tablets/ capsules/ soft gel/ seeds/ candy/ beans

FOOD

Coffee beans | Chocolate beans | Chewing gum | Seeds

PHARMA

Capsule | Tablet | Soft Capsule | Disinfection tablets

OTHER

Automobile | Pearls | Plastic | Washres
